IOWA ASSOCIATION FOR ENERGY EFFICIENCY ANNOUNCES SCHOLARSHIP AWARD WINNERS

Des Moines, IA - One of the most pressing needs in education today is funding. Scholarships allow deserving students to attain their educational goals, meet their professional objectives and succeed to their fullest ability. To help ensure the continued success and development of future energy efficiency professionals in Iowa, and in keeping with IAEE's mission "To promote the Art and Science of the Efficient Use of Energy", a student scholarship has been created to assist students in pursuing an education related to energy efficiency.

"We have created a scholarship program to acknowledge that we need to be helping the next generation move into the professional role of energy efficiency in the state" said Joel Logan, Chair of the Iowa Association for Energy Efficiency.

We are excited to announce that Michael Seymour of Urbandale, IA, student at Iowa State University, and Kimberly Wilderdyke of Adel, IA, student at the University of Northern Iowa, will each receive a \$1,000 scholarship from the Iowa Association for Energy Efficiency.

Scholarship recipients will be recognized at the 30th annual Iowa Energy Summit being held October 3-4 at The Meadows Events and Conference Center in Altoona, IA.

The Iowa Association for Energy Efficiency has also been celebrating their 30th anniversary in 2017.
